Abstract (en)

[origin: CN104947401A] The invention relates to a household appliance comprising an iron (1) and a portable base (2). The portable base (2) includes a position (21A) for placing the iron (1). The iron (1) includes a base plate (10), wherein a body is arranged on the base plate, and includes the protrusion portion extending behind the base plate (10); the base (2) has means for immobilizing the iron (1) board on the position (21A) for transporting of the entire apparatus by a handle (11) of the iron (1) board, characterized in that the immobilizing means comprise a holding member (22A) being inserted into a cavity (13) complementary shape formed on a lower face of the portion in cantilever from the body of the iron (1) board extending behind the base plate (10).
