Abstract (en)  
The present invention provides an attachment plug 120 that includes a decreased number of components and is commonly usable for plug receptacles of different standards. The attachment plug 120 is connectable to a plug receptacle 200 of the German standards and a plug receptacle 300 of the French standards. The attachment plug 120 includes a ground terminal 30 formed of an integral body including a first terminal 32, which is a German ground terminal 35, and a second terminal 33 including a German ground terminal 37 and a French ground terminal 38. The housing 40 has a first opening 46 into which the first terminal 32 is inserted and a second opening 47 into which the second terminal 33 is inserted. The ground terminal 30 includes a first flat plate 36 and a second flat plate 39 respectively closing the first opening 46 and the second opening 47.
