Abstract (en)

[origin: WO2014096616A1] The invention concerns a wiper blade (15) for a glazed panel comprising a flexible strip (17) and a system for spraying washing liquid, comprising a spray port (23) for spraying washing liquid, and a separator comprising first (21) and second (22) guide means, said spray port (23) being oriented so as to spray the washing liquid towards the separator, said guide means (21, 22) being disposed such that the sprayed washing liquid spreads over a concave portion formed by the strip (17) when the blade (15) is in an idle position, the first (21) and the second (22) means for guiding washing liquid being oriented respectively towards a first end and a second end of the blade (15).
