Abstract (en)

[origin: WO2014095755A1] The invention relates to a pack for consumable products, in particular foodstuffs, comprising a double container (1), said double container (1) having a longitudinal axis (1) and comprising a first, external container (10) which is composed of a body (18) that extends from a base (17) and encloses an internal space, said first container (10) being provided with a neck (16) having an filling opening (13) and a closing means (15), and a removable second, internal container (20) that is arranged in the internal space in the first, external container (10). According to the invention, such a pack comprises a first, external container (10) that has a one-piece wall (11), and a second, internal container (20) that has in each case at least one wall (21, 22) which is flexible or rigid, said second, internal container (20) consisting of two parts in the form of tubs (31, 32) which extend longitudinally along the longitudinal axis (1) and which are closable one (31) on the other (32).
