Abstract (en)

[origin: WO2014097180A2] The invention relates to a method for fastening the seal (10) of an oven door, wherein it is applied with out using screws, rivets, adhesives or any other fastening elements. To this end, the seal can be inserted between the edge of the metal sheet of the muffle and that of a front-flange frame of the oven, or else it can be clinched by means of tabs formed in the metal sheet. The invention further comprises a seal and an oven for implementing such method.
