Abstract (en)

[origin: WO2014101964A1] The present invention pertains to a refrigerator (1) having a chamber where food items are preserved. The present invention more specifically pertains to a refrigerator (1) having a UV-C treatment compartment whose opening is effected by means of a lock. Said refrigerator (1) comprises an electronic control unit (9) for controlling said lock of said cover (7). A further lock is provided on said door (3).
