Abstract (en)

[origin: WO2014101963A1] The present invention pertains to a stacking apparatus (100) allowing installation of a laundry treatment appliance on a workplate top of another treatment appliance in a space saving manner. In a more specific manner, the present invention provides a stacking apparatus for conveniently stacking to laundry treatment machines that are different in size. Said stacking apparatus comprises a support arm (4) which is extending over said lower appliance in the manner to peripherally cover edges thereof with a front panel (16) and two arms (4) at both sides.
