Abstract (en)

[origin: EP2944242A1] A suction head (otherwise called "brush" or "nozzle") for a vacuum cleaner or the like is described, said suction head comprising a base plate with a base plate channel. - wherein said channel comprises a front edge, a rear edge, a front wall and a rear wall, - wherein said front wall is inclined at a first angle with respect to a vertical plane which is perpendicular to a horizontal plane in which the front edge and the rear edge of the channel are arranged, - wherein said rear wall of the channel is inclined at a second angle with respect to said vertical plane, - wherein the magnitude of said first angle is different from that of said second angle.
