Abstract (en)  
[origin: WO2014111891A1] The invention relates to a portable decorative object (1) including a transparent part that includes at least one reflecting sloping edge (4) arranged such as to receive incident ambient light perpendicular to an upper surface (2) of the transparent part, the sloping edge (4) being oriented such as to reflect the perpendicular incident light into the transparent part. The object (1) includes a decorative region (6) arranged inside the transparent part, illuminated by the light reflected by the sloping edge (4).
