Abstract (en)
[origin: WO2014114983A1] Folding seat comprising a fixed structure (2) substantially shaped like an upside-down "U", to which respective articulated support frames (31,32) supporting the fixed structure on the ground are constrained on each of the two vertical sides (21,22) of the "U". Said chair further comprises a seat (4) constrained in an articulated way to one of the two support frames (31,32). It also comprises a chair backrest (4), which is constrained in an articulated way to said seat (4), and which is so positioned that when the chair is folded it is folded against the seat itself, and when the chair is unfolded it is in a substantially vertical position, or is tilted by a few degrees with respect to the vertical.
