Abstract (en)

[origin: DE102013100758A1] The element (10) has a lower mat foundation (11) whose top face (12) is provided with individual natural stones (13). The mat foundation is provided with a peripheral edge (16) and a drainage passage (23) that passes from the top face to a bottom face (18) of the mat foundation. The peripheral edge of the mat foundation is provided with a partial area (15) that is covered with blend stones (17). The mat foundation is made of reinforced concrete. The bottom face of the mat foundation is provided with recesses (20) that extend between two sides (19) of the mat foundation.
