Abstract (en)

[origin: WO2014114502A1] A container (2) for storing bold ammunition on a ship, particularly on a submarine, comprising a cover (2), which is hermetically connected to the container (2) in the closed state and allows the bold ammunition to be removed in the open state, and a chassis (6), by means of which the container (2) can be fastened to a ship wall in a shock-proof manner and in which the container (2) can be stored in two positions, a first shock-proof storage position and a second removal position.
