Abstract (en)

There is described herein packaging in the form of a hinged-lid box comprising: a housing comprising two side faces connected by a back face and a bottom face; and a lid comprising two side faces connected by a back face and a top face; wherein: at least one of said housing and said lid further comprises a front face; and the lid is connected to the housing by means of a hinge formed by an arcuate fold line connecting said back faces of the housing and the lid. There is further described herein a blank and a method for forming such packaging.
