Abstract (en)  
[origin: WO2014118169A1] The invention relates to a holding arrangement (1) for a hand-held power tool, in particular an electric power tool, containing an attachment component (10) having at least one attachment element (16) which is connectable to the power tool, at least one spacer element (30) and a handle (60) having a first handle end and a second handle end. The holding arrangement (1) furthermore contains a connecting device (50) by way of which the attachment component (10), the spacer element (30) and the handle (60) are connectable together.
