Abstract (en)
[origin: WO2014087178A2] The invention refers to a type of structures named "tensegrity" structures and it uses the general features and properties of these structures in a novel way, thus allowing the display of objects or products in closed or open-air spaces such as expo-building, closed market buildings, fairs, open markets etc. Such structures have special features and performance such as short assembly and short erection time, easy assembly and easy disassembly, possibility for the structure to be re-used more times, low cost etc.
