Abstract (en)  
[origin: WO2014130222A1] Systems, methods, apparatus, processes, computer program code and means for conducting transactions are described which allow a first party to a transaction to identify a second party to a transaction. The method includes obtaining a token for use in said transaction, said token including information usable to identify a token issuer and a value of said token and providing said token to a second device associated with said second party, wherein said second device transmits said value of said token to said token issuer with information usable to identify said second party.
