Abstract (en)
[origin: WO2014120017A1] The present invention relates to a new electric outlet device or arrangement 10 comprising several sockets or outlet receptacles 30, and a method for replacing an existing socket outlet 1 having a back-box 4 with the new socket outlet 10, wherein the new socket outlet 10 can be placed or mounted in one desired of at least two possible orientations or positions with respect to the floor and/or the back-box 4, without any need or necessity for rearranging or reorienting of the back-box 4 itself.
