Abstract (en)
[origin: WO2014121927A1] The invention relates to a painting method for painting a component (1), in particular of a motor vehicle body component (1), comprising the following steps: applying a base coat layer (5) to the component (1), applying a pattern (7) to the component (1), in particular a decorative strip or a graphic element, and applying a clear lacquer coat (8) to the component (1). According to the invention, the pattern (7) is applied to the base coat layer (5) without interposing a clear lacquer coat. The invention further relates to a corresponding painting facility.
