Abstract (en)
[origin: WO2014121981A1] The invention relates to a method (200) for operating a first motor vehicle (1), wherein at least one characteristic which is relevant to the operation of the first motor vehicle (1) is ascertained, and at least one component (11) of the first motor vehicle (1) is controlled on the basis of the at least one characteristic. The at least one characteristic is ascertained in at least one second motor vehicle (2, 3). The invention likewise relates to means for implementing such a method.
