Abstract (en)

[origin: WO2014102462A1] The invention relates to a display (1) for displaying a virtual image (5) in the field of view (3) of a vehicle driver (4), said device (1) comprising: an image-generating device (7); and at least one light source (9), said display (1) being configured to produce, together with the image-generating device (7) and/or the light source (9), an image (5) comprising one or more items of information and/or a colour (13) attracting the driver's (4) attention. The invention also relates to an image-generating device for a display as described above, said device comprising the aforementioned light source (9).
