Abstract (en)

[origin: WO2014124833A1] The invention relates to a drawer guide for a movable furniture part, in particular a drawer, having a body rail (10), a center rail (20) and a runner rail (30) and an end position dampening unit (200). The drawer guide is characterized in that the end position dampening unit (200) is arranged on the center rail (20), wherein a first activator (12) directly or indirectly on the body rail (10) and a second activator (32) directly or indirectly on the runner rail (30) are arranged such that the first activator (120) engages with the end position dampening unit (200) in an end position and the second activator (32) engages therewith in an additional end position of the drawer guide.
