Abstract (en)
[origin: WO2014180651A1] The invention relates to a passenger table for connecting to a side wall of a rail vehicle and for aligning in the transverse direction of the rail vehicle, with a side wall pillar (2) for connecting to the side wall and with a tabletop (1) which is supported via the side wall pillar (2), wherein a horizontal supporting bar (3) emerges from the side wall pillar (2) and, at a distance from the side wall pillar (2), is connected to the tabletop (1) via plastically deformable connecting elements in such a manner that, when the plastically deformable connecting elements are deformed, the supporting bar (3) is movable in a horizontal plane relative to the tabletop (1).
