Abstract (en)
[origin: EP2958193A1] The USB outlet according to the present invention includes a USB receptacle, a printed wiring board, and a housing designed to enclose the USB receptacle and the printed wiring board. The USB receptacle is provided at a first end in a first direction with an opening for receiving a USB plug, and is mounted on a mounting surface of the printed wiring board at a second end in the first direction. In the USB receptacle, a dimension in a second direction is longer than a dimension in a third direction. The printed wiring board is provided at opposite ends in the second direction with legs supported by the housing. The legs face each other in the second direction and are longer than the USB receptacle in the third direction. The USB receptacle is within a region of the mounting surface between the legs.
