Abstract (en)

The present invention relates to an air diffuser (1) with automatic temperature adjustment for air conditioning systems which assures correct air distribution and which basically consists of an outer casing (2) for discharging air to a series of orientable fins (3) through transmission means operated by means of a mechanism for automatic temperature adjustment comprising a first thermal fuse (5) fixed to the inner surface of the casing (2) and a second thermal fuse (6) vertically movable with respect to the first one.
