Abstract (en)
[origin: WO2014131450A1] The present invention pertains to a washing machine (1) comprising a rotary drum (3) in which cloth items are placeable and accessible via a front door (6), a water tub (2) in which the rotary drum (3) is rotatable, a motor (7) providing said rotary drum (3) to be driven by means of a pulley mechanism (10), the latter disposed outside said tub (2). The washing machine of the present invention further comprises a pump (4) along a circulation pipe (5) drawing wash water stored in the water tub (2) and delivering pressured water to a front door nozzle (11) via a nozzle water conduit (9), said front door nozzle (11) being arranged to jet wash water to inner surface of said front door (6).
