Abstract (en)
[origin: WO2014131705A1] The invention relates to a spark plug (1), comprising a housing (2), an insulator (3) inserted into the housing (2), a center electrode (4) inserted into the insulator (3), and a connecting pin (5) inserted into the insulator (3), wherein at least one fillet (20) is formed on the housing (2) and/or on the insulator (3) and/or on the center electrode (4) and/or on the connecting pin (5) at a change in the cross-section, wherein the fillet (20), as viewed in the cross-section, has a first leg length (21) and a second leg length (22) at an angle to the first leg length (21), and wherein the first leg length (21) is greater than the second leg length (22).
