Abstract (en)
[origin: JP2016017637A] PROBLEM TO BE SOLVED: To provide an armature rod module that can be easily manufactured and has improved durability, and an electromagnet or electromagnetic valve having such an armature rod module.SOLUTION: The invention relates to an armature rod module for an electromagnet with an armature rod 150 carrying a collar 152 has a caulking ring 160 connected fittingly to the armature rod 150, and a spring member 180 clamped axially between the collar 152 and the caulking ring 160.SELECTED DRAWING: Figure 1
