Abstract (en)
A fastener (100) which has first and second fastening parts (101, 201) inter-engageable for fastening two side parts of a brassiere (200) or similar article of clothing, the first and second fastening parts including co-operable fastening members for detachable fastening. The fastening members, at least when attached, are concealable by a concealing member (103), the concealing member is movable between an operating position to conceal the fastening members and a non-operating position to expose the fastening members.
