Abstract (en)

An absorbent sheet products strip (1), the strip comprising a continuous succession of individual absorbent sheets (1A, 1B, 1C) separated from each other by tear lines (4), the absorbent sheets being made of at least two plies bonded together by means of bonding points or lines or curves forming pattern units (3), multiple pattern units being distributed all over a surface of the individual absorbent sheets, wherein the pattern units (3) are distributed all over a surface of the individual absorbent sheets (1A, 1 B, 1 C) such that the pattern units (3) of one individual absorbent sheet does not superpose with other pattern units (3) of a determined number of successive individual absorbent sheets in the strip when said successive individual absorbent sheets are disposed on each other.
