Abstract (en)

[origin: EP2977038A1] The present invention refers to a cell for an inflatable mattress (10; 100; 200) adapted to be connected to an inflation and deflation system and adapted to lift a person. The cell comprises a main body (14; 50; 250) having a first volume. The main body (14; 50; 250) is connected to an inflation and deflation system. In addition, the present invention refers to an inflatable mattress (10; 100; 200) to be connected to an inflation and deflation system and adapted to lift a person, comprising at least one cell according to the invention.
