Abstract (en)

A refrigerator door (10) comprises an inner liner on which at least one support (B, 16) for goods is mounted. Such support (16) comprises a first plastic plate-shaped element (16a) which is hinged to the liner (14) and which can assume an horizontal configuration and a substantially vertical configuration, and a second metal U-shaped element (16b) which is hinged to the liner (14) and which can assume an horizontal configuration and a substantially vertical configuration.
