Abstract (en)

A mounting kit (1) is described for coupling a waveguide gasket (2) to a first waveguide (3), the first waveguide (3) comprising a first interconnection portion (5) including first interconnection elements (6) for connecting the first waveguide (3) to a second waveguide (7), the mounting kit (1) comprising: - a positioning member (11) comprising a holding element (12) configured to removably hold the waveguide gasket (2) ; - first guide elements (14) configured to be removably coupled to said first interconnection elements (6); wherein the positioning member (11) comprises second conjugated guide elements (16) configured to cooperate with the first guide elements (14) so as to slidably couple the positioning member (11) and the first guide elements (14).
