Abstract (en)
[origin: WO2014154344A1] The invention relates to a receiving container (3) for packet or small parcel mailings to be received or to be sent, having a closable opening (4) through which a packet or small parcel mailing can be inserted into the receiving container (3). The receiving container (3) comprises a fixing element (3b) by means of which the receiving container (3) can either be fixed to or removed from a door (1) of a house or an apartment, in particular without structural work in each case. The invention further relates to a method for delivery of a packet or small parcel by a delivery service to a recipient having such a receiving container (3).
