Abstract (en)
Folding table (1) comprising a tabletop (2) and table legs (3, 4) which are movable between a folded down position and an unfolded position in which the table is ready to use and wherein the tabletop (2) has an adjustable height position. In the unfolded position the table legs extend essentially perpendicular from the tabletop. The tabletop is provided with first height adjustment means (5) which are motor or hands driven, and the table legs are provided with second height adjustment means. The first height adjustment means that are provided on the tabletop are releasably connectable with the second height adjustment means that are provided in the table legs.
