Abstract (en)  
The present invention provides an improved lamp assembly comprising a screwable self-locking interface (13) between base (11) of a glass lamp and glass bulb (10). Base (11) is provided with a plurality of dimples (12). Said screwable self-locking interface (13) has multitude of knops (15) to be clicked in the corresponding glass dimples (12) and a cylindrical body provided with a left turn screw (14).
