Abstract (en)

[origin: WO2014162253A1] The present invention relates to a glue composition for glueing lignocellulose- containing material, comprising: water, a vegetable source of protein, a binding agent, and a source of lithium or a source of magnesium. The glue is suitable for glueing the lignocellulose- containing material for manufacturing an OSB, plywood board, fiberboard or particle board. The invention also relates to a method for manufacturing the glue composition, methods for manufacturing board materials with the glue composition, and board materials comprising the glue composition, obtainable by a method according to the invention.
