Abstract (en)

[origin: WO2014167433A1] The subject of the invention is a method of placing a layer of protective foil over the screen of a portable ICT device, in particular a telephone. The subject of the invention is also a device for placing a layer of protective foil over the screen of a portable ICT device and a matching overlay with foil for placing the foil over the screen of a portable ICT device, in particular a telephone.
