Abstract (en)
[origin: WO2014177653A1] The invention relates to a guiding assembly of a sliding door (2, 3) of a piece of furniture (1) with at least one sliding door (2, 3), said assembly comprising at least one suspension lever (6) that is displaceable in a direction of displacement (X) of the sliding door (2, 3) along a guide rail (5) arranged on a body (4) of the piece of furniture (1). The guiding assembly also comprises at least one door connection (7) that is coupled to the suspension lever (6) and fixed to the sliding door (2, 3). Said door connection (7) comprises several parts, wherein a first door connection component (71) can be immovably fixed to the sliding door (2, 3), and a second door connection component (72) connected to the suspension lever (6) is connected to the first door connection component (71) such that it is displaceable in the direction of displacement (X) of the sliding door (2, 3). The invention also relates to a sliding door and a piece of furniture.
