Abstract (en)

[origin: WO2015039694A1] The invention relates to a portable electronic device (1; 1a) having a touch screen (2) for displaying images (3), which device has a synchronisation interface (6) for forming a technical system (11) having further devices (1; 1b) of this type, which system makes an overall touch screen (9) that is formed from the individual touch screens (2) of all the devices (1) available for one of the devices (1; 1a). The invention also relates to a technical system (11) formed from devices (1). The invention further relates to a method for forming the technical system (11). Finally, the invention relates to a computer program product for implementing the method.
