Abstract (en)

[origin: EP2995585A1] A method for transferring a fluid between a vessel and an on shore installation, in particular at an industrial harbour, includes the steps of providing at least one fluid transfer hose 11; winding up the fluid transfer hose 11 on a hose reel 10 installed onshore; actuating the reel 10 to unwind the hose 11; displacing a free end 12 of the hose 11 relative to the deck of the vessel; and connecting the free hose end 12 to a mating equipment on the deck of the vessel.
