Abstract (en)

[origin: WO2014177762A1] The invention relates to whippable milk product comprising milk fat from unhomogenized milk, protein, water-soluble calcium salt, at least one stabilizer and water, and pH of the milk product being between 5.5 and 7. The invention is further related to a method for producing whippable milk product, and to a unit package containing said whippable milk product.
