Abstract (en)
[origin: WO2014183834A1] The invention relates to a method for handling containers, in particular cardboard boxes (10), for groups of objects, in particular packages (11), wherein the objects are inserted into the container one after another and are placed into an orderly formation therein, and wherein the containers are all kept ready by a handling device, in particular a cardboard robot (16), for insertion of the objects. The invention is characterised in that a plurality of containers are simultaneously kept ready by the handling device in order to be filled with objects.
