Abstract (en)

[origin: WO2014183908A1] The invention relates to a method for operating a vehicle (411, 413, 415, 417), wherein a risk parameter is determined (101) for a driving route section of a driving route of the vehicle (411, 413, 415, 417), wherein the risk parameter comprises an accident probability of the vehicle (411, 413, 415, 417) for the driving route section, wherein the vehicle (411, 413, 415, 417) is controlled (103) at least in an assisted manner on the basis of the risk parameter in order to reduce the accident probability for the driving route section. The invention further relates to a device (201) for operating a vehicle and a corresponding computer program.
