Abstract (en)
The present invention relates to a method of hygienization of a dishwashing machine, wherein said dishwashing machine (1) carries out at least one wash cycle in which a wash liquid is dispensed into a tub (2) of said dishwashing machine (1), the method comprising a hygienization program comprising a hygienization cycle wherein an oxidizing fluid is dispensed into said tub (2), said wash cycle and said hygienization cycle being distinct from each other, said hygienization cycle is carried out during at least one interval between one wash cycle and the next wash cycle. The present invention also relates to a dishwashing machine (1).
