Abstract (en)
The invention relates to a glazing arrangement for a balcony, terrace or a corresponding space, comprising movable sliding window elements (111 to 119) having no vertical frames and located between a top rail (130) and a bottom rail (140) of the glazing arrangement, the glazing arrangement further comprising a locking arrangement (L). The locking arrangement (L) comprised by the glazing arrangement is placed such that an operating interface (L2) and a locking tongue (L4) of the locking arrangement (L) are provided in a vertical piece (H) of a vertical edge of the glazing arrangement, and that a counterpiece (L5) for the locking tongue (L4) is provided in connection with a bottom strip (111 a) of a sliding window element.
