Abstract (en)
[origin: EP3002192A1] A cover of synthetic resin is attached to a fuel tank of an aluminum alloy with an improved appearance. The straddled vehicle (10) includes a fuel tank (20), a top cover (46), and a connection member (58). The fuel tank (20) is made of an aluminum alloy. The top cover (46) is made of synthetic resin and provided ahead of the fuel tank (20). The connection member (28) connects the fuel tank (20) and the top cover (46). The connection member (28) is sheet-shaped. The connection member (28) is provided between the rear part (46B) of the top cover (46) and the front part (20A) of the fuel tank (20).
