Abstract (en)

[origin: WO2014191678A1] The invention relates to a device comprising: an at least partially transparent bottle (6) containing a transparent cosmetic product (18); a cover (16) for closing the bottle, preventing any leakage of the product from the bottle; and an applicator (15) fixed to the cover and comprising at least one transparent portion extending into the product when the cover closes the bottle. The transparent portion of the applicator and the product have respective refractive indices, the difference between which being less than or equal to 0.075, preferably less than or equal to 0.05, or even less than or equal to 0.03.
