Abstract (en)

[origin: WO2014191651A2] The invention concerns a support (4) for a spare wheel of a motor vehicle. This support (4) is intended to be installed in the bottom of the luggage compartment of said vehicle. It is in the shape of a bowl, comprising a receiving space intended to receive a spare wheel. It is delimited by a shoulder intended to bear against the bottom of the luggage compartment, and is remarkable in that the shoulder comprises at least a first and a second conduit designed to guide air to and/or from a space located under the bottom of the bowl.
