Abstract (en)

[origin: WO2014191908A1] An automatic beverage dispensing apparatus comprising automatic centering means for bottles and vessels in beverage dispensing apparatuses, such as to allow the proper insertion into and the proper positioning of the bottle in said apparatuses also when the operator is unskilled or does not apply the required care in the step of inserting the bottle into said automatic beverage dispensing apparatus. The automatic centering means according to the present invention also allow, advantageously, easy installation on existing dispensing apparatuses so as to allow the retrofitting thereof.
