Abstract (en)
[origin: EP3005925A1] The invention is a support or plate (1) for brooms, brushes, scrubbing brushes or tools in general for cleaning floors and surfaces, comprising a body (2) to which it is possible to constrain bristles (6) of brooms or brushes and/or one or more cloths, and a sleeve or tube (4) joined to said body (2) and provided with engagement means (48) for coupling a stick (M) thereto. The inside (44) of said tube (4) is divided into a first engagement portion (46), in which there are said engagement means (48) suitable for connecting the stick (M), and a second portion (47), or extension, near the open end (42) of the tube (4) and without said engagement means (48).
